

Do NOT take away what the people are asking for, they not only pay for the service but request it. Leave XM radio the way it is. If the majority of the subscribers wish not to have the services of XM they can always leave XM, do NOT limit the selection. The vast variety is one of the reasons why I PAY for XM radio, quality is another. I listen to the weather channel, if I dont want to listen to it, I can always change the channel. reject the NAB's petition 04-160
